Unleash your productivity & creativity

Your new best companion

Take notes, draw and markup documents. This active pen magnetically snaps to the keyboard for a lightning-fast wireless charge to get up and running quickly.

Made of premium metal and faux suede, the newly designed keyboard was built for sturdy typing and productivity. The magnetic hinge detaches or snaps on to instantly switch between tablet and laptop mode.

Latitude 7320 Keyboard required with pen, sold separately.

FHD & 4K display options with ComfortView Plus

Designed with Smart Antennas for worry free connectivity with ExpressConnect technology and Wi-Fi 6, 4G LTE options

See important information page 20

Connectivity is more important than ever......

The changing workforce has more of us working from around our homes, on the go, or at a remote location while multi-tasking.

New ExpressConnect[21] within Dell Optimizer dynamically finds the best Wi-Fi access points and directs bandwidth to conferencing applications where you need them most.

Intel® Wi-Fi 6 (Gig+) delivers nearly 3x faster speeds and next-gen security to PCs and wireless networks.[16]

4G Gigabit LTE[10] options ensure you stay connected on the move without Wi-Fi and avoid downtime. eSIM allows users to easily connect to different mobile carriers while traveling without having to physically switch SIM cards.[10]

Dell's Smart antennas are always aware, always adapting to ensure signals are strongest whether in laptop or different modes.

# Innovative ways to keep a PC cool while it works hard

Advanced thermal solutions

Patented, innovative Dual Opposite Outlet (DOO) fans allow for more power in a compact size. Vents on multiple sides maximize airflow to all the right places. The revolutionary cooling system is crucial to system response time, battery life, and quiet performance.

The boundaries of system performance are pushed to the max with dual heat pipes to further cool and quiet your PC. As the system turbos, heat is removed more efficiently.

On the 2-in-1, adaptive thermal response intelligently detects micro shifts and adapts to the user's style of working. It automatically adjusts the power profile depending on usage mode (tent, laptop, tablet or closed).

IT can manage thermals within the BIOS. It's not tied to software, which saves on storage size, and makes it easier for IT.
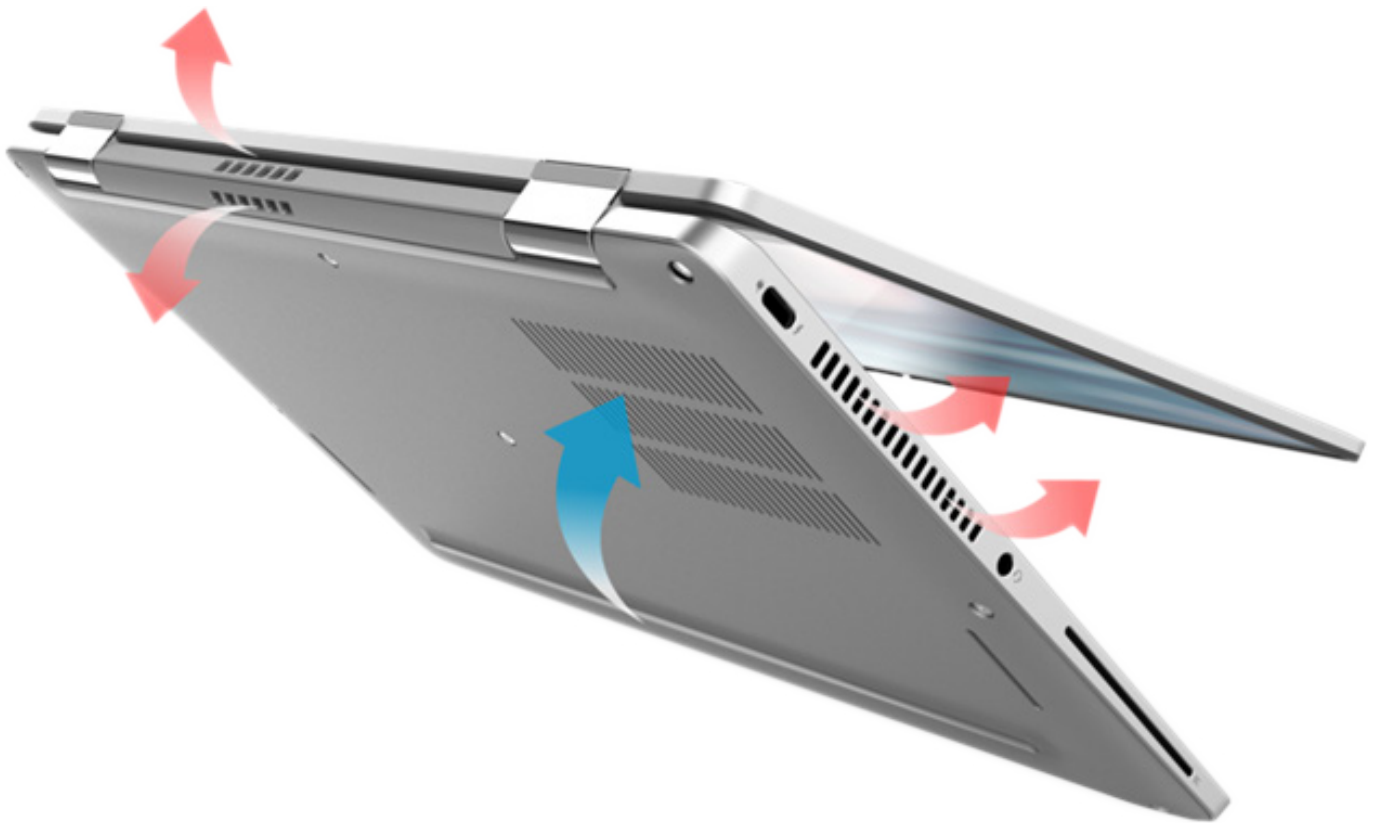

Latitude cameras for better collaboration & productivity

Great video quality has become increasingly important for remote collaboration. Present your best self without the need for an external webcam.

Latitude cameras employ Temporal Noise Reduction (TNR), reducing grain aka "noise" to improve image and video quality, even in low light.

The 7320 Detachable features a world-facing 8MP 1080p and frront-facing 5MP camera with an Intel® Image Processor (IPU 6) that enhances colors and improves contrast.

Higher resolution FHD + IR cameras are available on the 7320, 7420 and 7520.

ExpressSign-in detects your presence for a touchless auto-wake & lock experience, so you can start work instantly and protect your work upon walking away.

Take conferencing to the next level

Premium speakers & mics with Intelligent Audio

Exceptional audio quality is now more important than ever.

Only Dell offers Intelligent Audio to filter background noise, stabilize volume and prioritize preferred voices. Thanks to Waves NX® Technology, every meeting feels like you're in the same room.

2x noise-cancelling microphones provide high quality noise reduction and echo cancellation. Microphones are strategically placed on the top of screen to avoid interfering noises like system fans and keyboard typing.

A powerful amp improves low range vocals.

We added top firing speakers on the Latitude 7520 for a premium audio experience where the audio quality rivals the size of this expansive 15.6" screen.

ComfortView Plus is always on with exceptional color

Software Methods

Reduced Blue Light Brightness Method
Can create green or yellow effect.
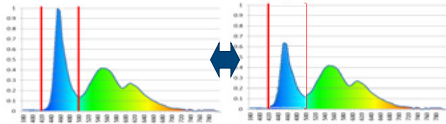

Normal mode   LBL mode

Blue Peak Shift
Can make screen appear yellow.

NightLight OFF   NightLight HALF   NightLight FULL

ComfortView Plus
Hardware advantage

TÜVRheinland® CERTIFIED

Latitude Advantage
Dell ComfortView plus is a built-in hardware solution. This means that it just works. There's no need to adjust software apps or create settings that may yellow your screen.

We invested to ensure we're meeting your needs. Our ComfortView Plus screen is TUV 2 certified to meet standards of low blue light emission.

Blue peak is shifted right to reduce the exposure to hazardous range of 415nm to 460nm.
Color calibration and tuning is performed to ensure color integrity and accuracy is maintained.

Toxic range

Shift Blue peak to 460-465nm range
+
Adjustment via color filter
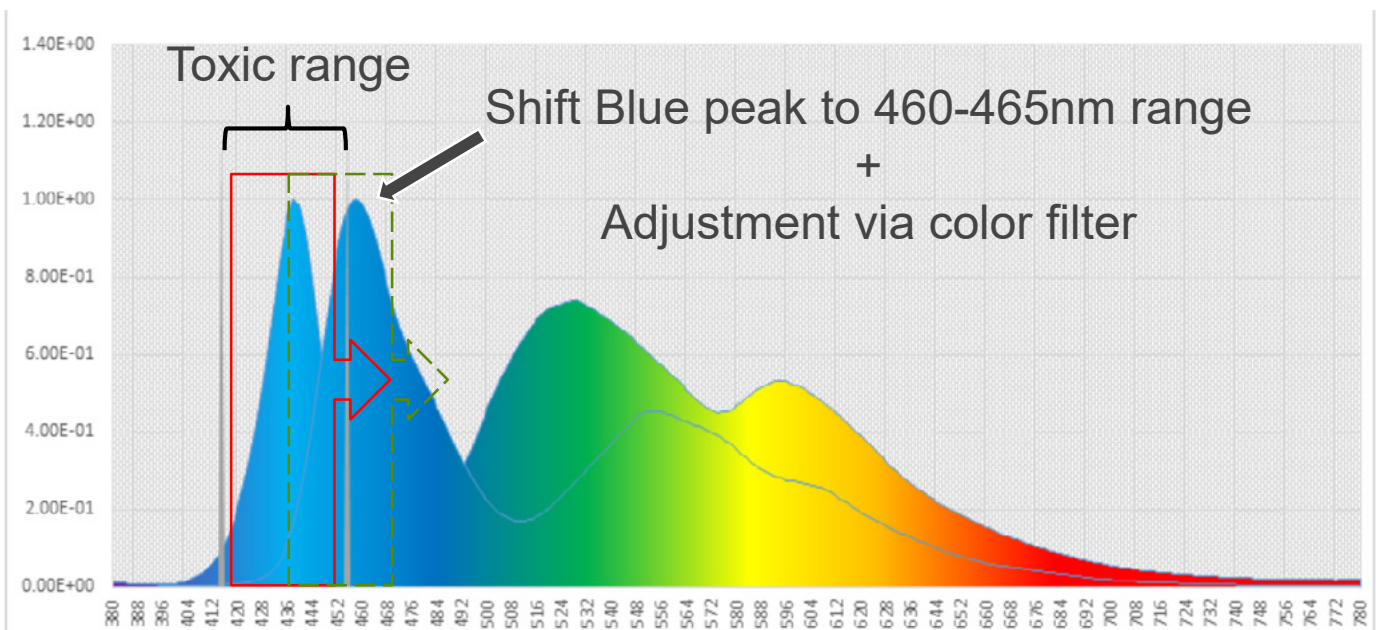

End-to-end sustainability for Latitude at scale

Industry's most sustainable commercial PC portfolio[29]

Dell was 1st PC manufacturer to use reclaimed carbon fiber and bioplastics from tree waste[30]
Through an innovative process, Latitude 7000 Series utilizes even more reclaimed carbon fiber. The result? A lighter PC with even more recyclable carbon fiber. New 5000 laptops are the first to use bioplastics from trees in the design.[30]

Low VOC Waterborne Paint at scale
Dell is a leader in this process, paving the way for a healthier work environment, which enables a sustainable process for the industry at large. On 9000, 7000 and 5000 Series, we moved to 100% waterborne paint on painted parts.

EPEAT GOLD across entire portfolio
New 2021 Latitude products are EPEAT Gold.[20]

Ocean-bound plastics across more products
Dell keeps plastics out of the ocean and economy by using plastics collected from beaches & coastal areas and using it in our 2-in-1 packaging trays.

Asset Resale & Recycle Services
These Dell services ensures products are properly collected, recycled and disposed of at EOL.

Long lifecycle batteries
Increase the lifespan to avoid replacements.

Still thin with all the ports & security needed for business

The world's most intelligent PCs featuring Dell Optimizer

Latitude devices feature Dell Optimizer a built-in artificial intelligence software that learns and adapts to your behavior to create a smarter, more personalized user experience. It automatically improves application performance, battery run time and more in the background, so you have fewer disruptions no matter where you're working.

ExpressConnect

Experience seamless Wi-Fi. New ExpressConnect[21] automatically joins the strongest access point in the office and directs bandwidth to conferencing applications, wherever you work.

ExpressResponse

With Intel® Adaptix™ Technology, prioritize your most important apps, so they open faster and perform better.[22]

ExpressSign-in

Get to work fast with our PC proximity sensor enabled by Intel® Context Sensing Technology that detects your presence to instantly wake and log you in via the IR camera and Windows Hello, all without lifting a finger. It locks when you walk away, so your work stays safer.[23]

ExpressCharge

Dell Optimizer extends runtime and improves battery performance by adapting to your patterns. ExpressCharge Boost delivers up to 35% charge in about 20 minutes, or up to 80% charge in an hour with ExpressCharge.[24]

Intelligent Audio

Collaborate like you're in the same room. Intelligent Audio enhances your audio quality and reduces background noises, so you can hear and be heard, creating a better conference experience for all.

Recommended accessories

LATITUDE 7320 | 7420 | 7520

ON-THE-GO

DELL PREMIUM ACTIVE PEN | PN579X (compatible with 2-in-1)

Easily take notes and stay organized whether in meetings or on the go.

DELL PREMIUM RECHARGEABLE MOBILE WIRELESS MOUSE | MS7421W

Long lasting rechargeable mouse with a battery life of up to 6 months on a full charge[19].

DELL USB-C MOBILE ADAPTER | DA310

Compact and portable 7-in-1 USB-C mobile adapter provides superb video, data connectivity and up to 90W power pass-through to your PC.

DELL PREMIER SLIM BACKPACK 15 | PE1520PS

Travel light while making a positive impact on the environment by selecting the compact, eco-friendly backpack with EVA foam cushioning to protect your laptop from impact.

AT THE DESK

DELL THUNDERBOLT DOCK | WD19TB

Work at full speed with Dell's powerful Thunderbolt Dock. Charge your system faster, support up to two 4K displays and connect to your peripherals via a single cable.

DELL DOCKING STATION MOUNTING KIT | MK15

Easily attach your Dell Dock to the Dell Dock Mounting Kit and mount it behind a monitor, to a wall or under the desk for a clutter-free workspace.

DELL DUAL MONITOR ARM | MDA20

This comprehensive dual monitor and system mounting solution keeps your desk clutter free. It is the worlds first monitor arm that offers swivel angle adjustment with a flip of the switch[20].

DELL MULTI-DEVICE WIRELESS KEYBOARD AND MOUSE | KM7120W

Designed to work seamlessly across 3 devices, this compact keyboard mouse combo keeps your desk clutter-free and lets you stay productive with up to 36 months[25] of battery life.

DELL ULTRASHARP 27 4K USB-C MONITOR | U2720Q

Experience captivating details and true-to-life color reproduction on this brilliant 27" 4K monitor with a wide color coverage.

DELL MOBILE ADAPTER SPEAKERPHONE | MH3021P

Multiport adapter with integrated speakerphone offers an all-in-one connectivity and conferencing solution.

JABRA EVOLVE2 85

Engineered to keep you focused, this headset is perfect for virtual collaboration. Experience all-day comfort with leather-feel ear cushions and on-the-ear design.

Recommended accessories

LATITUDE 7320 DETACHABLE

ON-THE-GO

7320 DETACHABLE KEYBOARD

Made of premium metal and faux suede. Built for sturdy typing. The magnetic hinge detaches or snaps on to instantly switch betweeen tablet & laptop mode.
